

LICEO GINNASIO STATALE UGO FOSCOLO

ALBANO LAZIALE

PROGRAMMA DI GEOGRAPHY (IGCSE)

2024-2025

DOCENTI: Natalie Claire Salma – Laura Ciuffini

PART A: GEOGRAPHICAL THEMES

THEME 2 The natural environments

Topic 22 : Rivers and drainage basins. Topic 23: The work of rivers. Topic 24-25: River landforms. Topic 26: Rivers hazards and opportunities. Topic 27: Managing river flooding. Topic 28: The work of the sea. Topic 29: Coastal landform created by erosion. Topic 30: Coastal landform created by deposition. Topic 31: Coral reefs and mangrove swamps. Topic 32: Hazards and opportunities. Topic 33: Managing coastal erosion. Topic 34-35: Collecting weather data. Topic 36: Using weather data. Topic 37: Using climate and weather data. Topic 38: The equatorial climate. Topic 39: Tropical rainforest ecosystem. Topic 40: rainforest deforestation. Topic 41: Hot desert climate. Topic 42: Hot desert ecosystems.

THEME 3: Economic development

Topic 43: Indicators of development. Topic 44: Identifying inequalities. Topic 45: Classifying production Topic 46: Employment structure varies. Topic 47: Globalisation. Topic 48: Agriculture systems. Topic 49: Food shortages. Topic 50: Industrial systems. Topic 51: Industrial location. Topic 52: The growth of tourism. Topic 53 The benefits and disadvantages of tourism. Topic 54: Managing tourism for sustainability. Topic 55: Energy uses varies. Topic 56: Nuclear power or renewables. Topic 57: using water. Topic 58: managing water. Topic 59: Economic activities pose threats. Topic 60: Managing for sustainable development. Topic 61: Conserving natural resources.

GEOGRAPHICAL SKILLS:

1. Giving 4-figure and 6-figure references
2. Working out distance and area
3. Giving a compass bearing
4. Representing height
5. How to calculate a gradient
6. Describing relief
7. Describing and interpreting population pyramids
8. Draw and interpret a cross section
9. Random, systematic and stratified sampling
